Activities & Excursions

Cultural Immersion

The spiritual heart of Amanyangyun is Nan Shufang. Named after the royal reading pavilion in the Forbidden City, this cultural complex has been created from one of the most architecturally impressive antique buildings that made the journey from Fuzhou. Enhanced with furniture crafted from the nanmu wood characteristic of Ming interiors, the pavilion is a modern-day recreation of the 'scholars' studios' of 17th-century China's literati. Nan Shufang is a space to learn, contemplate and practise traditional crafts such as calligraphy, music and painting. Across the courtyard, nine dedicated rooms have been created to host traditional tea and incense ceremonies.
