

AMANDARI

Nyepi, Day of Silence
2026

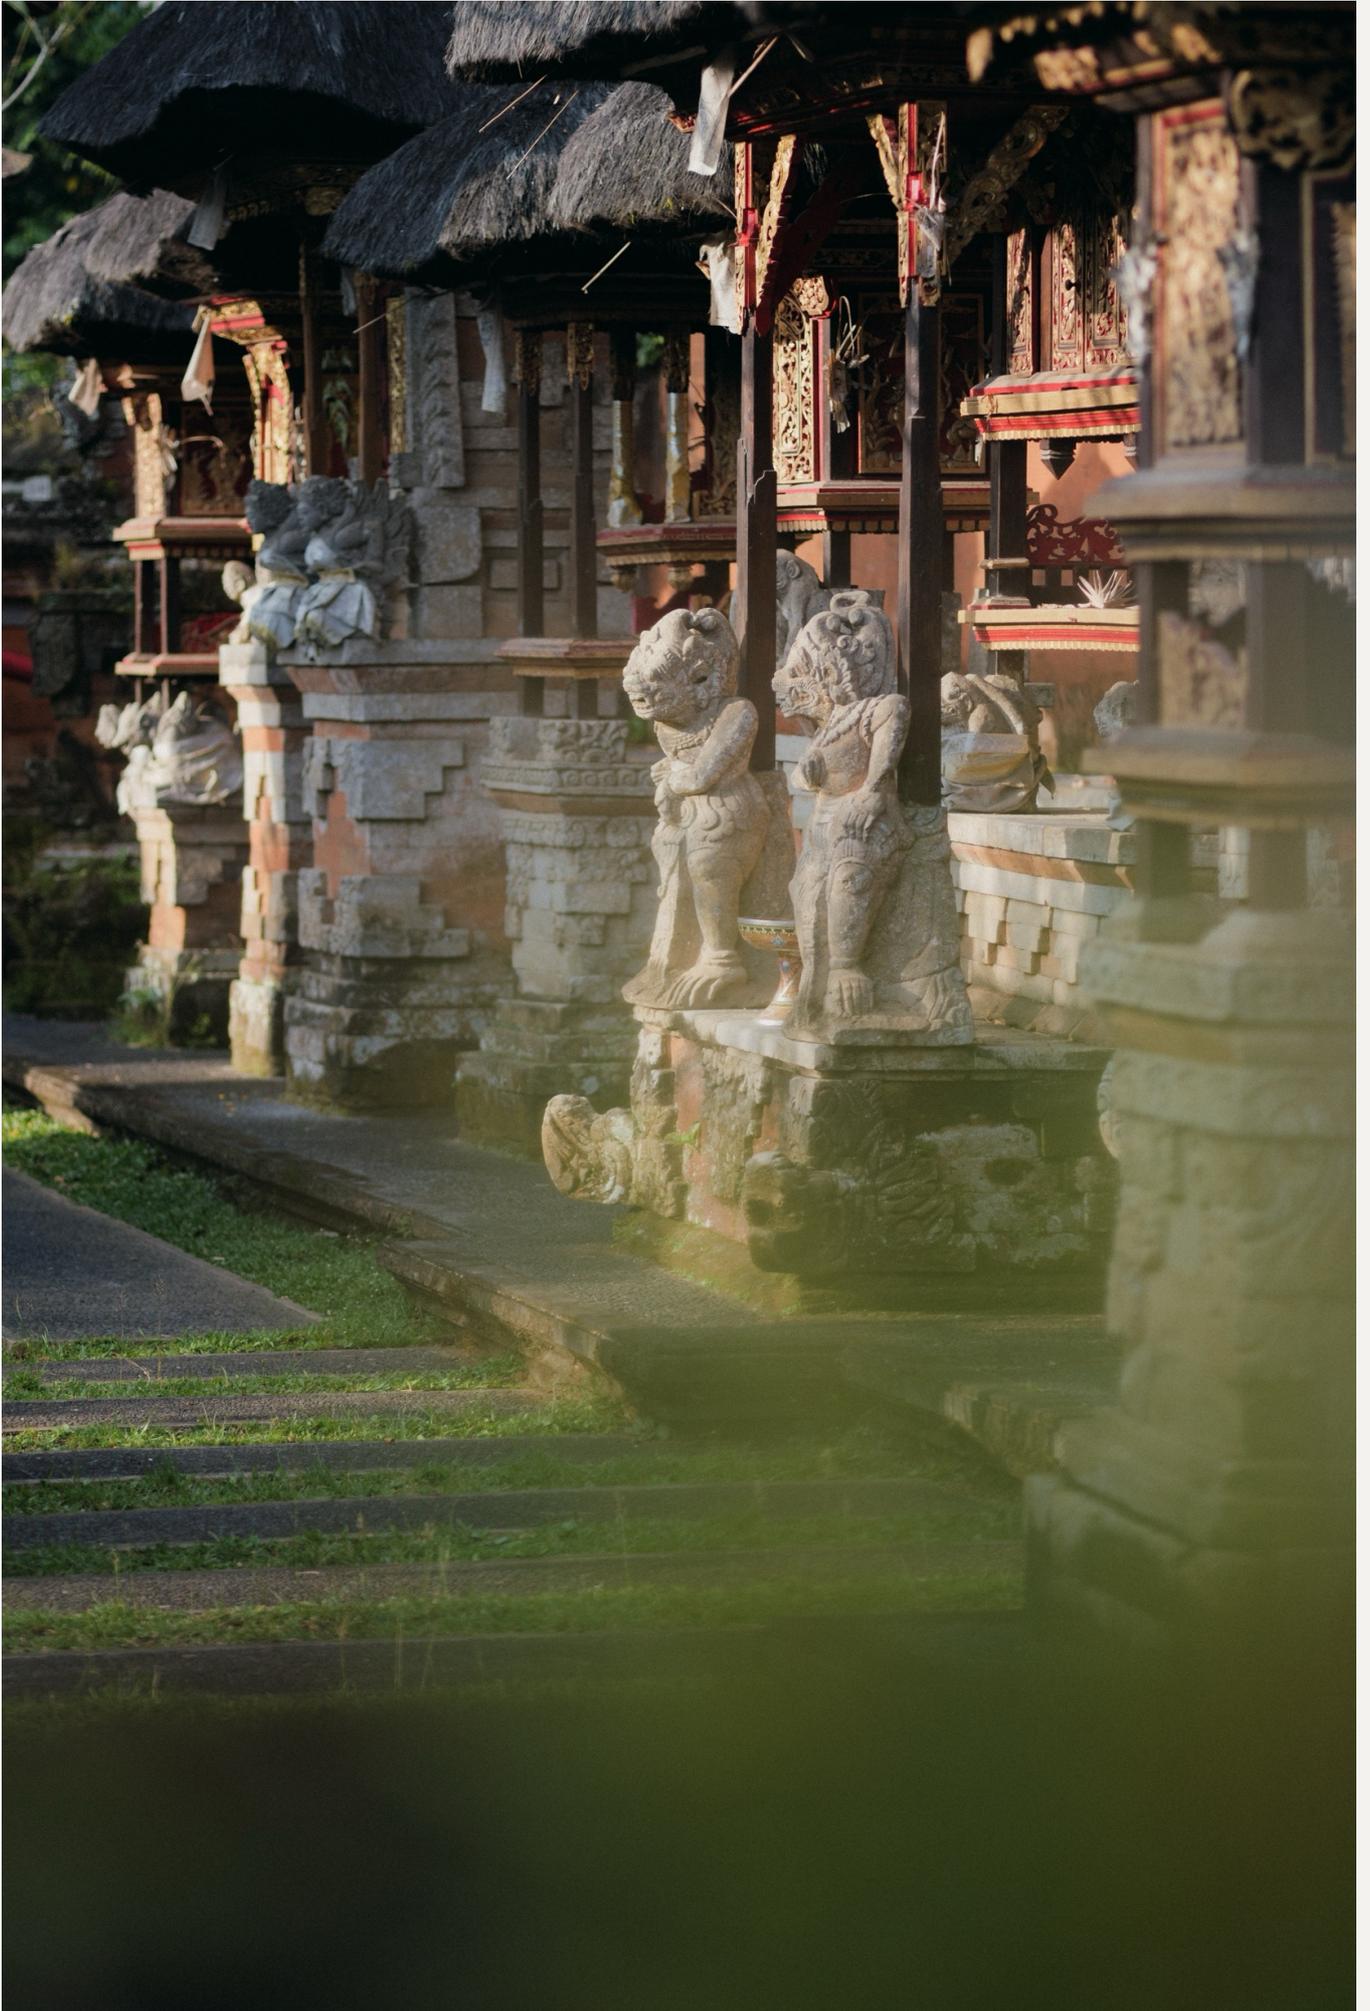

Rahajeng Nyepi

As the Island of the Gods welcomes the Saka New Year, Bali ushers in the occasion in its own distinctive way. Instead of celebrating with noise and festivity, the island chooses a path of peace, shutting down completely for 24 hours. It becomes the only island in the world to observe complete silence for an entire day, offering space and time for Mother Earth to heal herself. And deep within this quietude lies a rare opportunity for introspection and contemplation.

We invite you to fully immerse yourself in this unique occasion with a specially curated program. While outdoor excursions are not permitted during Nyepi, a selection of experiences within the resort remains available, as outlined in your Experience Guide, and can be tailored to your preferences.

Wishing you a peaceful and meaningful Nyepi.
