TRICIA TEE VISITING WELLNESS SPECIALIST

20 December 2025 to 5 January 2026

Reawakening Body Cell/Facelift with Seifu and Tuning Forks

Discover the power of Seifu and Tuning Forks—two gentle, non-invasive techniques designed to rejuvenate your skin and restore your body's natural balance. Through the Seifu Lift and the harmonious frequency of Tuning Forks, your cells are activated to deliver a natural facelift effect, stimulate collagen production, and visibly reduce wrinkles and pigmentation. By restoring acupressure points, meridians, and lymphatic flow, these therapies enhance well-being, boost energy, and reveal radiant beauty through balance.

5 Elements Balancing Therapy with Seifu, Scent and Sound Therapy for Full Body Healing

Seifu therapy can be complemented by activating the five senses. The beauty of sound healing with singing bowls—an ancient therapy—helps deeply relax and restore both body and mind. The vibrations produced by the bowls travel through the body, which is composed of about 60% liquid, driving energy into every cell. This resonance heals at a cellular level, bringing deep relaxation and mental clarity.

Personalised Sound Bath

We are living in a state of constant distraction, focused on the needs of others. Now is the time to honor your own needs in a space designed uniquely for you. Each session begins with a personal consultation and chakra check to understand your current energy state. Using a combination of Tibetan bowls, tuning forks, chakra chimes, Koshi chimes, and a rainstick, Tricia creates a nurturing soundscape that encourages deep relaxation, emotional release, and energetic harmony.

Sound Healing with Singing Bowl and Tuning Forks

This session is a pure sound healing experience, a vibrational cleanse for body and mind. It begins with cellular detox through the soothing vibrations of singing bowls, releasing stagnant energy and tension. Tuning forks then deepen cellular healing, guiding your body's natural vibration back into harmony through resonance and entrainment. The session concludes with warm hot bowl therapy, allowing the body to absorb lingering vibrations while encouraging circulation, grounding, and total relaxation.
