

AMAN'S TRIBUTE TO ITALIAN FLAVOURS

Fresh, seasonal ingredients are grown in gardens and on farmland, foraged from forest floors, or plucked fresh from the oceans, then transformed by the simple alchemy of the kitchen into bold, heart-warming dishes, alive with flavour.

The cooks of Italy, famed today for their mastery of the 'cucina povera', have been preparing food this way for centuries, feeding family and friends with honest, uncomplicated dishes, made with love and ingenuity.

We wish to make you feel the warming atmosphere of our family home meal.
