

Simplicity, Tranquillity and Time

Elements so often missing in our frenetic modern lives.

at The Connaught

Beneath the elegant Edwardian lobby of The Connaught in London lies a portal from England to the East. The Aman Spa at The Connaught is the first Aman resorts-branded facility built outside one of the company's own properties. The result is an oasis of tranquillity that reflects the group's inimitable style and Aman's Asian-inspired aesthetic. Aman's first urban destination combines cool granite and white marble, warmed with timeless honey-gold oak and dove-grey Portland stone. Ultimately the effect is one of harmony creating an atmosphere of luxurious calm.

Our Philosophy

Wellness is more than being free from illness, it is a dynamic process of change and growth, a state of complete physical, mental and social wellbeing. Aman's spa concept has been carefully curated with four pillars of wellness in mind – nutrition, movement, psychological health and bodywork – with the singular goal of achieving this ideal balance of Integrated Holistic Wellness for every guest.

Treating the whole – mind, body and spirit – by integrating ancient healing modalities with the best of modern science, Aman strives to provide guidance, support and knowledge in a journey that extends beyond the physical boundaries of the globe's Aman Spas. Our aim is for guests to leave empowered and renewed, with the tools to continue their wellness journey, and the resilience and focus to put them into action.

A New Spa Language

Many of the world's ancient systems of traditional healing such as Ayurveda and Traditional Chinese Medicine (TCM) are based on complex theories of the workings of the human body and mind. They incorporate aspects of health unexplored in allopathic medicine, which means that certain concepts and terms can sound strange to the uninitiated. Talk of chakras and energy can be off-putting for some when taken out of context. Yet when understood as part of the philosophy behind a traditional healing system, they reveal an intriguing new language for explaining how our bodies work. While understanding these theories is not a prerequisite to enjoying their benefits, Aman Spa aims to demystify this language for those who wish to know more. Our spa menus draw inspiration from traditional healing systems the world over, from the rich lore of herbal medicine, to the shamanistic traditions of the Navajo Native Americans.

Understanding Energy

The idea of life force or life energy is very common in traditional healing systems. In TCM this is known as "qi" (chi), while in Hindu philosophy including yoga, Ayurveda and martial arts, "prana" is the Sanskrit word used to describe this potent vital energy. A shared principle in many healing modalities is that any blockage in the flow of life force in a body can cause imbalance and therefore ill health in some respect. Blockages can be physical, mental or emotional, and their removal to restore balance and energy flow is the main goal of many traditional healing practices.

Aman Skincare

Aman's new line of all-natural skincare products draws on the knowledge and wisdom of ancient wellness traditions while harnessing the power of nature. Rare and precious ingredients used include pearls, homeopathic metals, healing tree oils, amethyst, jade and sage, as well as wild-harvested Amazon butters and rainforest muds. Consisting of smoked body balms, fragrant dew mists, liquid body oils, invigorating body polishes, anti-ageing serums and more, the range is made from organic ingredients sourced from around the world for their purity and potency, and their link to Aman destinations.

Working holistically to nurture and enhance overall wellbeing, each product penetrates deep into the skin to nourish and rejuvenate, but also works on a deeper level, meeting emotional need states. Grouped into three unique formations that reflect three healing pathways back to wellness – Grounding, Purifying and Nourishing – the products contain ingredients that work in sequence with the human body to promote change and return equilibrium. The physical benefits of each product are completely aligned with its ability to address emotional imbalance, together offering a holistic fine-tuning with tangible, long lasting results.

Aman Signature Treatments

The Aman Spa Signature Menu, available at every Aman Spa destination around the world, reflects the Grounding, Purifying and Nourishing formations of the Aman Skincare product range.

There are four treatments available within each formation: Massage, Body Polish & Wrap, Face Ritual and the Journey – encompassing all three treatments to greatly amplify their effects. Each treatment is tailored to the individual to target specific concerns and help attain personal wellness goals.

A deeply relaxing, mineral-rich foot ritual is a prelude to each Aman Signature Treatment. This is also symbolic – an act of humble service that fosters trust, helping guests to fully benefit from the treatments that follow.

Grounding

For those seeking reconnection, stillness and perspective

Developed to promote inner peace and return body and mind to a state of harmony. For those seeking reconnection, stillness and perspective, our deeply relaxing, meditative and regenerative Grounding pathway is a balm for the restlessness brought on by the frenetic pace of modern life.

The use of amber oil relaxes brainwaves, helping to ease anxiety and stress. Sandalwood calms the nervous system – its earthy aroma inducing a meditative frame of mind. Other ingredients include rose quartz crystals, jasmine, rare black Peruvian and purple muds, wild harvested butters and silver.

Techniques include a Black Storax smoking ceremony, a Tibetan Ku Nye massage, meridian and acupressure work, cupping, and kneading.

Recommended for treating stress, exhaustion, anxiety, jet lag, dry skin and hair, insomnia, tension in the lower spine and adrenal fatigue, as well as feelings of insecurity, rootlessness and the inability to switch off.

Grounding Massage

A Ku Nye full-body massage honors ancient Tibetan healing traditions to stimulate muscles, while a subtler massage energizes the meridian system. This treatment incorporates cupping along meridian lines, acupressure, kneading, and deep-tissue techniques. The body massage is followed by a Tibetan head massage that induces an even deeper level of stillness.

Grounding Body Polish & Wrap

1 hour 30 minutes

A key ingredient in this ritual is amethyst powder, known for its gently sedative energy that promotes peacefulness and emotional stability. The full-body polish gently exfoliates the skin, brightening tone and improving texture, while the cocooning wrap initiates a period of stillness, leaving skin radiant. The final touch is the application of silky smooth smoked body butter.

Grounding Face Ritual

This facial incorporates rose quartz crystals to promote healing, frankincense to aid rejuvenation, and hyaluronic acid to boost hydration. Lymphatic and muscular massage techniques stimulate circulation and raise vibrational energy, while acupressure using heated Himalayan salt poultices leaves skin radiant. The treatment ends with a Peruvian black mud and amethyst crystal mask and Tibetan head massage.

Grounding Journey

3 hours

Incorporating all three Grounding treatments, this journey encourages a deep connection to the earth and a renewed sense of self. It begins with the Body Polish & Wrap, followed by the Massage, and completed with the Face Ritual. Each builds on the treatment that came before and grounds in every sense of the word, ensuring a state of perfect contentment.

Nourishing

For those seeking regeneration, recuperation and healing

Holding the spiritual energy of love, this powerful formation encourages reconnection with the self through the healing of emotional and mental wounds. It leads one towards self acceptance, enabling individuals to be their most real and best selves, while simultaneously restoring and rejuvenating the body on a physical level.

Ingredients include jasmine stem cells, sandalwood, vitamin B12, fresh royal jelly, jade crystals, silk and gold. They have all been chosen for their powerful regenerative abilities, fostering a meditative state and feelings of joy.

The techniques used in this formation are geared towards healing. They include a smoking ceremony with frankincense, a chakra-balancing massage, mantra music, marma point therapy, and the Light Technique – based on the shamanistic principle that luminosity is generated from three points on the face.

Recommended for treating lackluster skin, the signs of ageing, anxiety, chronic fatigue and emotional stress, as well as feelings of disconnection, grief and discontent.

Nourishing Massage

1 hour 30 minute

This blissful, nurturing treatment is ideal for physically or emotionally exhausted souls. The use of marma point therapy brings the body back to a state of heightened awareness and balance, while rhythmic massage techniques ease muscular tension, imbuing a sense of complete restoration. The use of sound healing activates the kundalini – dormant energy stored at the base of the spine.

Nourishing Body Polish & Wrap

l hour 30 minutes

Encouraging the body to enter a phase of deep rest, this nutrient-rich ritual includes jade powder - known to hydrate, tone and rejuvenate - in both the polish and wrap. The polish also contains healing calendula oil, restorative amethyst powder, essential oils and Himalayan salts that soften the skin. The mud wrap combines the nourishing effects of jade powder with mineral-rich Italian clay, rose hydrolat and argan oil. The treatment ends with the full-body application of Sacred Heart Balm.

Nourishing Face Ritual

1 hour 30 minutes

This brightening, moisturizing treatment calms and rejuvenates through the use of honey, rosehip, wheat germ, cactus oil, jasmine stem cells and silk. Combined, they work to soothe and brighten dull or irritated skin. This facial also invites relaxation by stimulating the flow of prana – described as the universal life force that enters the body via easy breathing. Skin is left looking truly radiant through the application of the Light Technique, focusing on the forehead, septum and throat.

Nourishing Journey

3 hours

This Journey serves to combine the many forms of nourishment into an immersive experience that touches every aspect of the individual – beginning with the Body Polish & Wrap, followed by the Massage, and completed with the Face Ritual. Each treatment builds on the one before, leaving the guest feeling reconnected and rejuvenated.

Purifying

For those seeking lightness, breathing space and a fresh start

A powerful detoxifier and metaphysical cleanser, this formation holds the spiritual energy of vitality, stabilizing the heart and mind, easing restlessness and energizing the body. Negative thought patterns are purged, while physical benefits include cleansing and brightening, giving skin a new lease on life.

Ingredients include sage, sandalwood, juniper berry, rose geranium, raw honey, pearl, quartz and argon stem cells – chosen for their anti-ageing and purifying characteristics. Techniques include a smoking ceremony with Palo Santo, lymphatic drainage, nerve point therapy, and nerve stimulation.

Recommended for treating bloating, low energy levels, dull skin, thyroid problems, postillness exhaustion, headaches and migraines, as well as feelings of stagnation, heaviness and confusion.

Purifying Massage

1 hour 30 minute

This deeply relaxing yet revitalising treatment incorporates manual lymphatic drainage techniques and nerve point therapy on the back to balance the nervous system and promote the flow of waste products away from the tissues. The pressure applied is significantly lower than in conventional massages – but powerful in its effects. The use of arnica, Palo Santo and seaweed oils stimulates circulation and encourages the release of negative energy and toxins.

Purifying Body Polish & Wrap

1 hour 30 minutes

Reviving spirits, toning the skin and inducing a state of peace, this ritual incorporates quartz – known as a master healer for its amplification of energy levels. Seaweed fucus oil, raw honey and essential oils are also applied, stimulating circulation and lymphatic drainage. The meditative marine flora mud wrap includes deep-cleansing kaolin, mineral-rich sole, sea lavender and seaweed for boosting collagen levels. The treatment ends with the full-body application of Palo Santo salve.

Purifying Face Ritual

1 hour 30 minutes

This tension-releasing treatment is extremely beneficial for those exposed to urban pollution, combining nerve point therapy and lymphatic drainage to provide a detoxifying release. Lymphatic massage stimulates the glands on the chest, neck and face, resulting in glowing, toned skin, while key ingredients including brightening pearl, regenerative homeopathic copper and powerful marine extracts strengthen collagen production.

Purifying Journey

3 hours

This Journey serves to combine the many forms of nourishment into an immersive experience that touches every aspect of the individual – beginning with the Body Polish & Wrap, followed by the Massage, and completed with the Face Ritual. Each treatment builds on the one before, leaving the guest feeling reconnected and rejuvenated.

Wellness

Specialised complementary therapies

Travelling, living and working in busy cities can leave us feeling as though our health and well-being are products of our environment. We have all felt susceptible to the influences of work, stress and managing our daily lives, leading to poor food and lifestyle choices. With the correct knowledge, tools and support you can work to create an environment that provides the foundations for positive mental and physical health. We offer a variety of complementary therapies provided by specialised practitioners to assist you in achieving wellness.

Osteopathy

Osteopathy is a system of diagnosis and treatment for a wide range of medical conditions. It works with the structure and function of the body, and is based on the principle that the well-being of an individual depends on the skeleton, muscles, ligaments and connective tissues functioning smoothly together. Osteopaths use touch, massage, stretching and physical manipulation to increase joint mobility, ease muscle tension, enhance blood and nerve supply to the tissues and help the body's own healing mechanism.

Tuina Massage

Chinese massage or tuina involves a combination of gentle movements using the same diagnosis, points, channels and theory as acupuncture. Whilst very effective for musculo-skeletal problems (RSI, lower back pain, tight neck and shoulders, sports injuries etc) it also works at a deeper level and can help many of the conditions treated by acupuncture.

Craniosacral Therapy

Craniosacral therapy supports your body's innate ability to balance, restore and heal itself. This deeply profound treatment is a light-touch hands-on therapy that addresses compensation and compressions within the craniosacral system including the membranes and cerebral spinal fluid that protect the brain and spinal cord. This vital system extends from the bones of the skull, face and mouth, which make up the cranium, down to the sacrum area.

Your practitioner senses tensions in the body and helps to release them in a supported and comfortable way. During or after a session you may feel calm and energised, with increased clarity of mind and a feeling of well-being. Because it is so gentle and non-invasive, craniosacral therapy is suitable for all ages.

Acupuncture

Traditional Chinese Medicine (TCM) is one of the world's oldest medical systems still widely practised today. The holistic approach diagnoses, treats and even prevents conditions by identifying patterns of imbalance and then applying the individual or combined therapies of acupuncture, tuina (a therapeutic massage) and other techniques such as Qi Gong (gentle breathing and stretching exercises) with dietary advice to correct them.

Acupuncture works by stimulating specific points on the body's surface through the insertion of ultra-fine needles. By restoring balance to the body, practitioners are able to treat more than one condition at a time. TCM works well alongside western medicine and the World Health Organisation (WHO) has found that acupuncture is clinically effective in treating over 65 different conditions including pain, stress, insomnia, infertility, menopausal symptoms and digestive problems. It can also be used to relax deeply and conversely, to invigorate flagging energy.

Your TCM practitioner will carry out a comprehensive consultation prior to your first treatment which will look at all aspects of your medical history, lifestyle and current symptoms to design a bespoke treatment.

Facial Rejuvenation Acupuncture

Acupuncture has been used for centuries in China to preserve vibrant, youthful skin. Facial rejuvenation acupuncture is the contemporary application of this ancient wisdom, enhancing both physical appearance and general health. Combining the benefits of facial rejuvenation acupuncture with Aman's facial care, this treatment firms, smooths and renews the skin's elasticity. Whilst it may be used to improve a wide variety of skin conditions, it is most commonly used as an anti-ageing treatment.

At the initial consultation your medical history and skincare regime will be discussed in detail and your individual treatment plan formulated. You will leave feeling relaxed, looking vibrant and refreshed. Courses are also available where more intensive and long lasting treatments can be done.
