## Cultural Insight

'The Island of the Gods', 'The Morning of the World', 'The Last Paradise', and 'The Land of Magic'. Bali is known by many names and for good reason. This beautiful tropical island and its unique people offer countless unforgettable experiences. There is no limit of activities and opportunities to get close up and personal with Bali's magic, its people and their remarkable culture.

### **Aman Villas Private Temple Blessing**

The Private Temple Blessing at Aman Villas' family temple is a unique experience and insight into the spirituality of Bali's people. An opportunity to get involved with the island's magic, its people and their remarkable culture, this private blessing takes place on property and offers guests peace of mind and serenity.

Led by a local Hindu priest, guests will be walked through a series of traditional prayers and blessed with 'tirta' (holy water) and 'bija' (consecrated rice).

### **Sacred Temple Tour**

Religious devotions are as much a part of daily life in Bali as breathing, eating and sleeping. To experience the true essence of Bali you really should not miss out on visiting at least one or two temples.

Aman Villas has developed this fascinating tour of four temples in our area, which traces the steps of the Javanese high priest, Dang Hyang Nirartha, who came to Bali in 1537 in search of a sacred site where he could achieve enlightenment, known as Moksa in Hinduism.

This expedition brought Nirartha to our Bukit region of Southern Bali. The four temples visited include Pura Goa Gong, Pura Geger, Pura Gunung Payung and Bali's most famous temple, Pura Luhur Uluwatu; each temple has its own fascinating background of history and legends.

Opt for the vintage VW convertible for a truly unique experience.

### **Balinese Cooking Class**

Discover the authentic Indonesian culinary experience with a cooking class and local market tour.

This experience takes you into the midst of the traditional markets, where you can hand-pick fresh ingredients with one of our talented local sous chefs. After that, it is off to work, crafting succulent dishes with the assistance of the Aman Villas team. The recipes learnt here remain untouched by time and modern additives. Our chefs have learned their skills from their mothers and grandmothers, with their traditional family recipes passed down through generations.

Once your meal is complete, you will be able to enjoy your culinary delights by the pool or in your dining bale.

### **Pasifika Art Museum**

## Culinary Indulgences

Fresh seafood from the surrounding waters comprise the daily specials, and the fertile farms and terraced gardens of the island grow much of the produce used in the kitchen. Dining spots range from a dedicated dining pavilion, a dining space at the main pavilion, or at the privacy of your own room. Private breakfasts and special dinner can be enjoyed at the Beach Club.

### **Megibung Feast**

Indulge in the Megibung Feast, with a menu inspired by the late King of Karangasem - I Gusti Agung Ketut Karangasem - in 1692. Megibung means 'to share from one platter' and this type of dining is commonly used for festive and ceremonial occasions.

Our Megibung starts with a Balinese soup, followed by a platter of Balinese dishes that surround a nasi tumpeng, which is a cone of rice representing Mt. Agung, where the Hindu mother temple of Besakih is located. The Balinese dishes include a 2-hour slow-roasted Balinese chicken in palm bark, local fish wrapped and cooked in banana leaf, tuna, fish satay and other authentic Balinese salads celebrating the quality and abundance of fresh ingredients that the island provides. The Megibung Feast is followed by a selection of local Balinese sweets.

### **Dining Out**

Bali offers nearly every type of cuisine you could wish for, from delicious home-style cooked local food to a French gastronomic feast. Please ask your Butler for a more extensive choice of warungs, restaurants, clubs and bars; we will be happy to make the necessary reservations and organize your transport.

### **Candlelit Poolside Dinner**

A more romantic or celebratory option, enjoy an intimate dinner under the stars beside your Villa pool. The warm candlelit setting creates an ideal atmosphere to celebrate a birthday or special occasion.

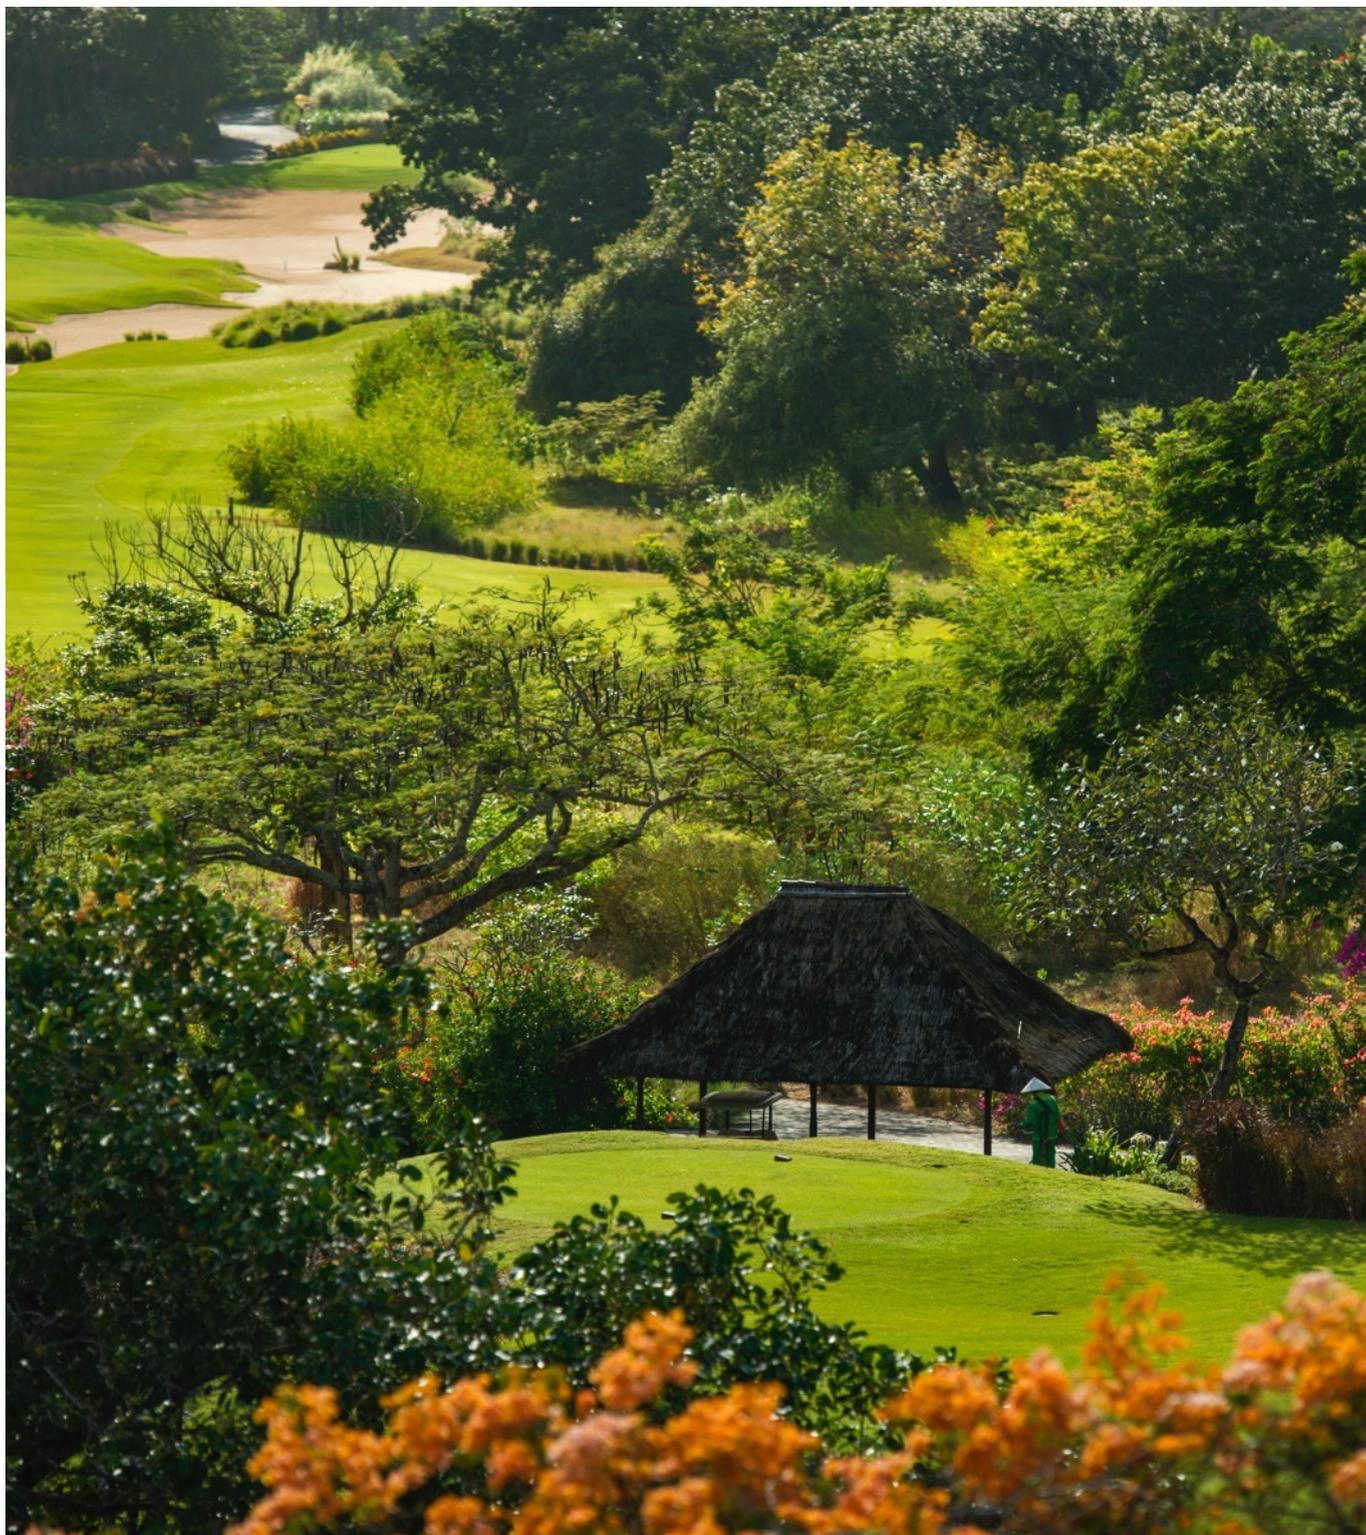

### **Movie Night**

Available on request, transform the outdoor area of your villa into a private cinema surrounding the pool and spend a memorable evening seated under the stars with an exclusive Villa Movie Night. Gather together with loved ones, choosing from a collection of family favourites, classics and blockbuster movies accompanied by drinks and snacks from the in-room villa a la carte menu. In case of bad weather, the welcoming Main Pavilion provides a cozy indoor alternative.

### **Seafood Market Barbecue**

A tailor-made menu and live cooking showcase the fresh and locally sourced ingredients of this dining experience. Choose items such as live lobster from Sumbawa, grouper from Mancar, live mud crab from Sumatra, prawns from Pasuruan, tuna from Singaraja, barramundi from Papua and snapper from Karangasem to be prepared to your liking and cooked over traditional coconut husk barbecue.

## Golf

The golf course in Bali are as diverse as the island itself and all courses are within a relative easy distance of Aman Villas. Aman Villas provides complimentary use of the latest range of Wilson Staff graphite shaft golf clubs so that you can enjoy your game to the maximum.

### **Bali National Golf Club**

After a superb re-design by Nelson & Haworth golf course architects, the stunning Bali National Golf Club is located directly adjacent to Aman Villas. This championship course offers a truly unique golfing experience, which is both challenging and enjoyable to players of all levels.

The par 72 tournament-standard golf course measures 7,166 yards from the back tees and starts off on the outward nine playing up through verdant green, rolling hills and tropical fauna. The fourth hole, a deceptive uphill 158-yard par-3, ends on the green with rewarding views of Bali's holy mountain, Gunung Agung. Hole 8, a par-4, requires an accurate tee shot through a wooded ravine. Water features heavily on the way to the 9th green with a babbling brook running the length of the fairway and a picturesque lake to the right of the green, home to a wonderful variety of birds. The inward nine plays on level land through coconut trees and a series of man-made lakes. Hole 17, a signature hole, is Bali's answer to the famous TPCC Sawgrass #17, in Florida.

### **New Kuta Golf**

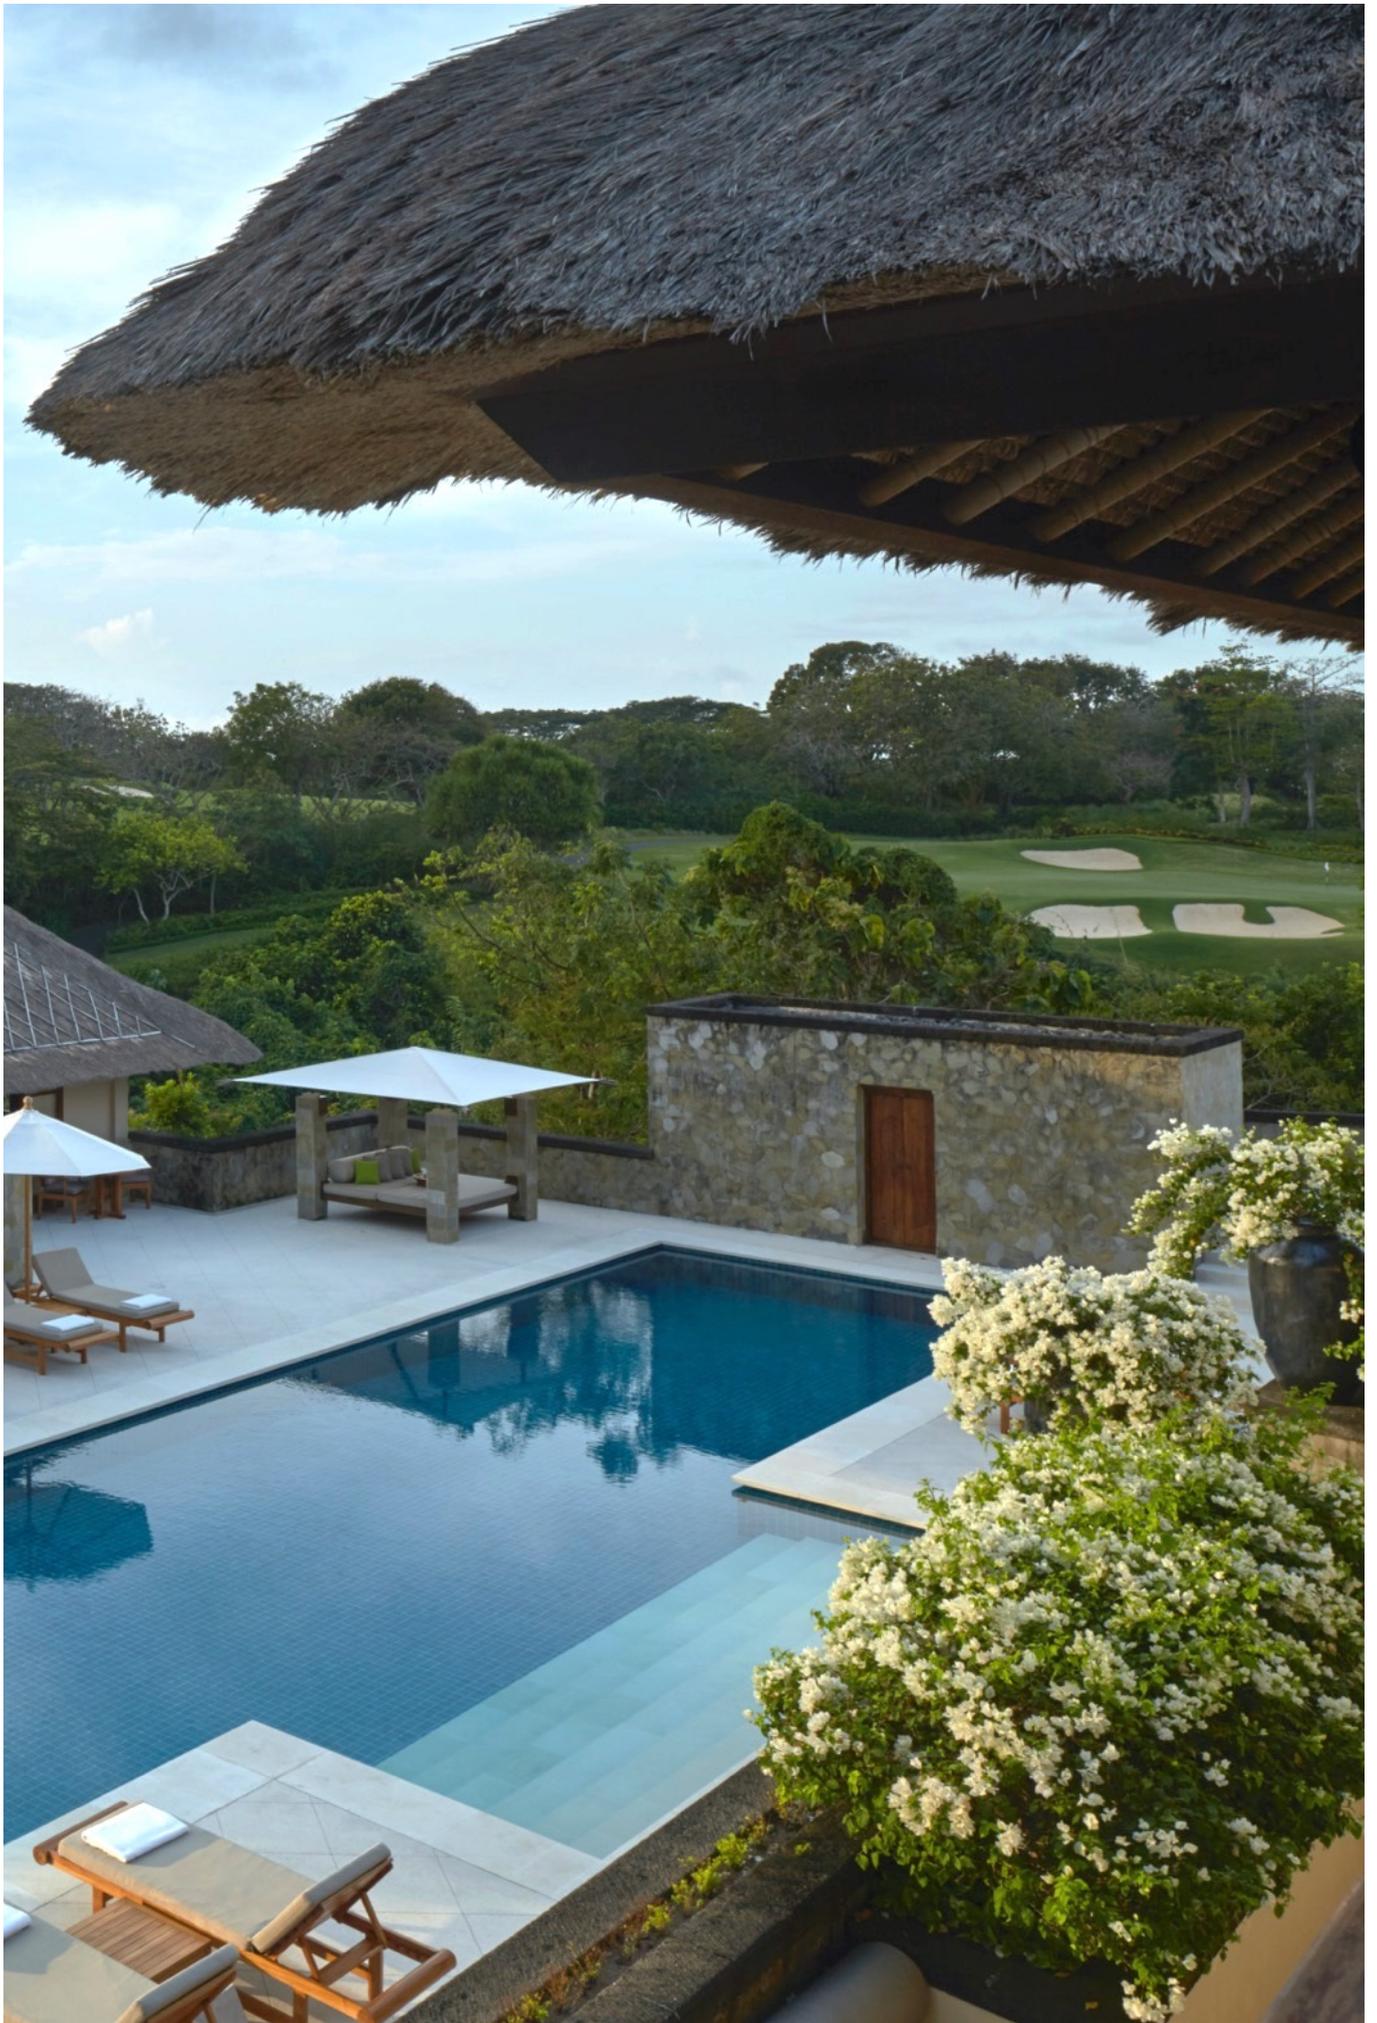

On the southwestern rim of the Bukit Peninsula, perched above a limestone cliff overlooking Dreamland and Balangan beaches, this scenic 18-hole course is located a 30 minutes' drive from Aman Villas.

New Kuta Golf is a championship standard course and the first links style layout in Indonesia. It will challenge both the low handicapper and reward the novice. With five sets of tees, there is enough variety to ensure a satisfying experience for all skill levels.

### **Bukit Pandawa Golf & Country Club**

Bukit Pandawa Golf & Country Club is the first golf course of its kind in Bali, if not in all of Southeast Asia, with 18 championship-calibre par-3 holes. While the par-54 layout is a time-saver, with a typical round lasting just 120 minutes, it is not short on its own challenges.

Set across a limestone cliff top as it meanders through dramatic rock outcroppings and terraced rice paddy fields, the course in itself is an artistic statement, with the spectacular white sandy beach and the Indian Ocean as its backdrop.

## Surfing

Bali is renowned for its spectacular surf breaks and its virtual year-round season of accessible waves. Aman Villas is delighted to introduce surfing experiences for our guests, in association with East Bali Surf and Sail.

This truly authentic and uniquely Balinese experience is for all levels of surfers, from beginners to advanced, with accomplished Balinese surf guides from East Bali Surf and Sail who will accompany you on your surfing adventure.

## Sanur Surfing

For beginners, the Sanur Reef headquarters of the East Bali Surf & Sail (EBSS) is the ideal spot to learn from scratch or warm up your skills if you are a little rusty.

For the intermediate and more advanced surfers, the surf guides, who are pioneers of the East Bali breaks, will tailor-make an unforgettable experience and take you to the most hidden and un-crowded surf breaks in East Bali.

### **Hyatt Reef**

A few kilometres south of Sanur Reef is the Hyatt Reef, home base of EBSS. Here, we take beginners out on the boat to the baby reef and get them standing on their boards generally in knee- to waist-high white water.

For the intermediate to advanced surfer, we go across the reef to where the bigger waves are suitable for fit intermediate and advanced surfers only.

Booties optional.

### **Sanur Baby**

300 metres north of the Bali Beach Hotel, in front of Matahari Terbit Beach, is a gentle beach break we call 'Sanur Baby,' which is suitable for beginners.

Booties optional.

### **Sanur Reef**

This famous right-hander is one of the best waves in Bali when it breaks overhead. Recommended for intermediate and advanced only, as it breaks over sharp coral.

Used by locals, this is a territorial break and guests are required to be accompanied by our local guides in order to have a memorable session.

Booties optional.

## South Bali Surfing

### **Bingin**

Bingin's hollow, fast barrel is addictive for experienced surfers who know how to handle it. However, expect competition from every visitor and local for all the barrels they can score for the day. You should also watch out for the 'stop sign,' the raised coral that has prematurely ended many a great surfing vacation for visiting surfers.

Take Bingin for what it is, a short left-hand wave that can cost you if you try to get more out of it than you deserve!

### **Uluwatu**

Uluwatu has been attracting surfers since the seventies. Uluwatu's five breaks offer surfers consistent swells with multiple chances to show off their skills. Not surprisingly, the place has grown quite crowded over the years.

Uluwatu provides the most exhilarating challenge during monsoon season, when the biggest swells hit the island. The temptation of taking on those 15-foot waves should be tempered by knowledge of the dangerous conditions – don't leave shore without a big board and a sturdy leash.

### **Nusa Dua**

Newbies be warned: Nusa Dua's shallow, sharp reef bottom and powerful, huge right-hand waves should be left to the experts. Nusa Dua is always ready with a wave on hand, including some of the biggest and baddest ones in town – at about 15 feet on a good day.

Nusa Dua is Bali's best rainy season surfing destination, peaking between October and April, with good access at any time of the year.

### **Padang-Padang**

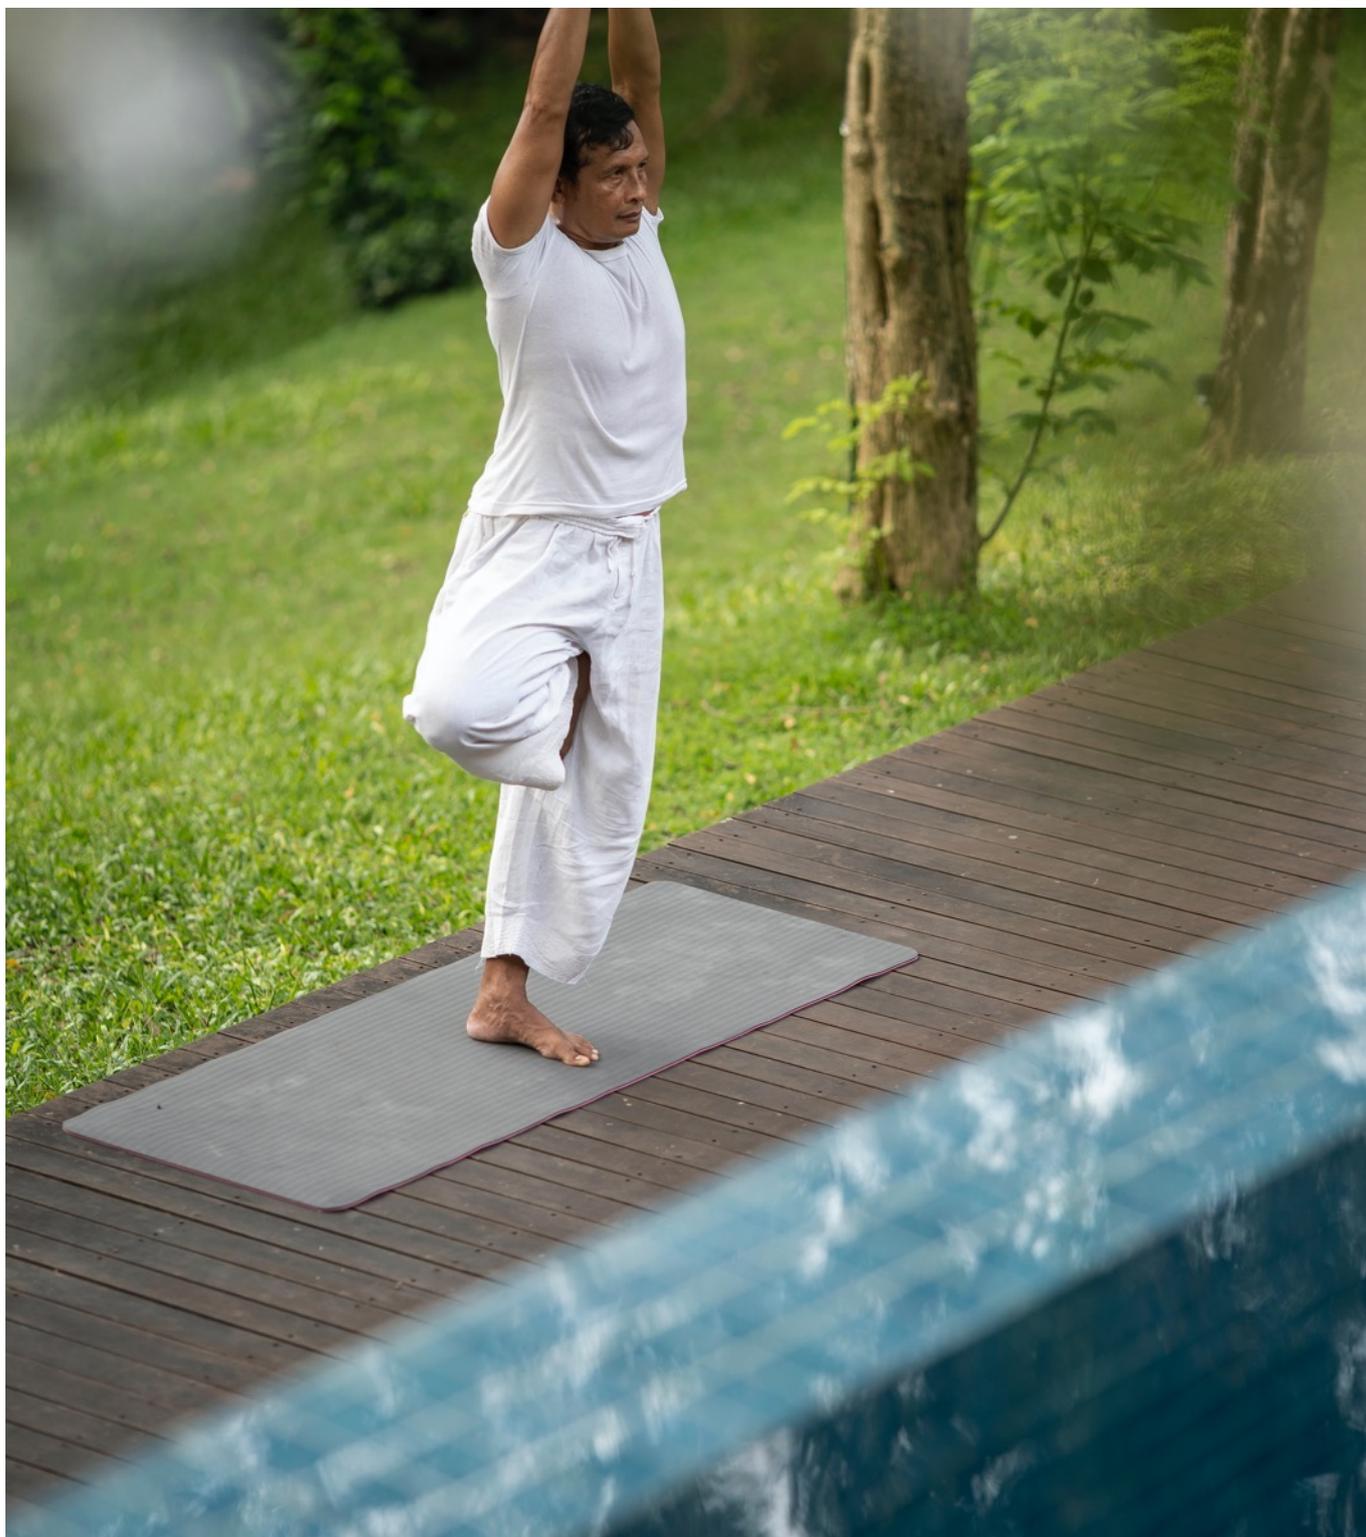

The 'Bali Pipeline's' surprising ferocity keeps professional surfers on their toes with huge swells and gigantic barrels that are about as fun to watch as they are to surf.

The downside: a wipeout here is more painful than most, as the sharp reef bottom and powerful swells create board-breaking, flesh-shredding situations that no one should attempt at low tide. Avoid if you're a beginner, take precautions if you're an expert.

### **Balangan**

Balangan at high tide is great for beginners, who can easily ride this reef break's long left-hand waves. On really good days, the big waves provide an irresistible challenge to expert surfers.

The vibe at Balangan is friendly and low-key, with less competition due to the smaller crowds compared to Kuta and Uluwatu.
