

AMANGANI

Winter Activities Guide

Amangani is located in the southern half of the Greater Yellowstone Ecosystem – a huge expanse of mountains, meadows, wilderness, sage flats, streams and rivers. Contained within this vast ecosystem are national forests, wildlife refuges and Grand Teton and Yellowstone National Parks.

In the winter season, Jackson Hole is transformed into a surreal winter wonderland. Abundant snowfall blankets the valley, creating a natural playground. Though some animals hibernate for the winter; bison, elk, moose, mule deer and wolves descend into the valley seeking food and shelter from the long Wyoming winter. With the animals in such close proximity, wildlife encounters and viewing opportunities are abundant.

We have created a series of excursions for you to explore Jackson Hole and its magical environment. In addition to our Amangani Signature Tours, some of our excursions are offered in conjunction with the most professional outfitters in the area. Many of these activities are offered in private settings.

Please note that prices and availability for these adventures are subject to changes until the time of booking. Please inquire with the Amangani Concierge for details and updates.

Kindly note that prices vary depending on vendor, location and distance of tour – please ask your Amangani Concierge for updated information.

Adventures with Amangani

Amangani Signature Wildlife Tour

As snow piles up at higher elevations, animals such as elk and mule deer migrate to the valley floor and make themselves visible to humans for the first time in several months. Our experienced guides tailor the tour according to weather conditions and wildlife behavior to choose the perfect route that will allow guests to take in the grandeur of the Jackson Hole Valley.

Tours can include the famous Elk Refuge where large big horned elk are likely to be seen or along the Gros Ventre Range where guests might just spot native wildlife such as moose and eagles. Tours can also venture through the Antelope Flats, better known as the historic Mormon Row near the southeast corner of Grand Teton National Park. Amangani guides are not only filled with wildlife facts but are also very knowledgeable about the park and surrounding areas.

Snowshoeing

Snowshoeing is an intimate and unique way to explore the vast wilderness of Jackson Hole Valley. A guide service offers both half day and full day tours into pristine backcountry areas that yield unprecedented opportunities for wildlife viewing, exploring the natural environment, and breathtaking views of the Teton, Gros Ventre, and Wind River ranges. Shorter 2-hour tours explore our neighborhood on the Butte and show off magnificent views of the mountains, the valley, and the Town of Jackson without having to travel far from home. Your naturalist guide will educate you on winter ecology, interpreting animal tracks and the geological history of the mountain ranges. Another alternative for the independent adventurer is to let us direct you to the trails and assist you in planning your self guided snowshoeing excursion. With Grand Teton Park a mere 35-minute drive from Amangani, the access is quick and easy.

Dog Sled Tours

A dog sled tour is perhaps the best way to see the beautiful scenery of Jackson Hole. During a fantastic trip through Bridger-Teton or Targhee National Forest the only sounds you will hear are the “shushing” of the runners, the panting of the dogs and the wind in your face. Before departing on your adventure you might journey to the kennels to meet the dogs and a musher who will be your guide. You may even have an opportunity to drive the sled yourself - a truly unforgettable experience. Dog sled tours are available on both a full day and half day basis. We highly recommend to book in advance as these trips are in high demand and often fill up quickly.
