The Amanera experience

Queridos Amigos,

Located on the Dominican Republic's northern shore, Amanera is set amongst nearly seven miles of continuous Atlantic seacoast overlooking Playa Grande beach from its cliff-top, surrounded by a verdant jungle and backed by the island's dramatic Cordillera Septentrional Mountain range.

From the historical treasures of the 16th-century Fortaleza San Felipe in Puerto Plata to local music performances, architecture tours, and cigar-rolling masterclasses, the Amanera team can easily arrange private cultural excursions personally tailored to guests' interests. For those in search of more challenging escapades, there are mountains to ascend, canyons to traverse, and waterfalls to rappel. Amanera ensures younger guests and families enjoy a stay packed with memorable moments, returning home with new skills and memories to cherish.

Your family at Amanera would be pleased to tailor any activity to your needs and interests. Reservations in advance are encouraged since some experiences and activities require planning. We, therefore, recommend that you discuss your interests with our Guest Assistance team to assist you with the arrangements. Since activities will be reserved exclusively for you, we kindly ask you to give a minimum of 24 hours' notice. We are looking forward to customizing your stay with personalized experiences.

Warm regards,

Your Amanera family

A novel way to enjoy the natural beauty of the north coast, Amanera's Kayak or Stand-up Paddleboard eco-tours begin in a secluded beach in Rio San Juan (ocean condition dependent). Launching the kayak or paddle board, guests can paddle east along the coast and into the Laguna Gri Gri, where the mangrove trees provide an important ecosystem for many species of birds, fish and reptiles. Along the way you will come across protected coves, home to schools of fish that often leap out of the water, sea urchins on the sandy bottom and oysters. After exploring the mangroves, stop at a natural pool for some snorkeling before heading back.

The tour takes about one and a half hours for a group of one to four people. Includes round-trip transportation, equipment, instructions by personal guide, refreshments.
