Amangani is located in the southern half of the Greater Yellowstone Ecosystem – a huge expanse of mountains, meadows, wilderness, sage flats, streams and rivers. Contained within this vast ecosystem are national forests, wildlife refuges and Grand Teton and Yellowstone National Parks. In winter, Jackson Hole is transformed into a surreal winter wonderland. Abundant snowfall blankets the valley creating a natural playground. Though some animals hibernate for the winter, bison, elk, moose, mule deer, and wolves descend into the valley seeking food and shelter from the long Wyoming winter. With the animals in such close proximity, wildlife encounters and viewing opportunities are abound. Activities are virtually unlimited within this rich and varied ecosystem.

We have created a series of excursions for you to explore Jackson Hole and this magical environment. These are offered in conjunction with the most professional outfitters in the area. Please note that many activities can also be offered on a private basis and sometimes include a picnic or boxed lunch. Alternatively, picnic lunches can be arranged through the Grill at Amangani.

For more information on any of the excursions, including outdoor gear, clothing and vendor services, please contact a Guest Manager at +1 307 734 4870 or via email at amanganiactivities@aman.com.
